Professional Experience

2022/09 – present
Lalitpur, Nepal

Frontend Developer

Dallotech [🔗](#)

- In my current role at Dallotech, I work as a full-time frontend developer.
- My responsibilities include developing interactive user interfaces and integrating complex functionality.
- I utilize a combination of technologies such as Next.js, Tailwind CSS, Ant Design, and Redux.

2023/06 – present
Lalitpur, Nepal

Backend Developer

Dallotech [🔗](#)

- In my current job at Dallotech, I work as a backend developer.
- I am involved in designing the architectural pattern for the backend framework and creating backend services for our application.
- I use a bunch of special tools like NestJS, ExpressJS, Sequelize, and TypeORM.

2022/07 – 2022/09

Frontend Developer (Freelancing)

Rasan [🔗](#)

- During my time as a freelance frontend developer, I developed the Rasan Admin Panel.
- This platform efficiently handles and organizes a large number of inventory, orders, and products.
- This project was built with React, Tailwind CSS, and React Query.
